

Xiangyu Chen

Ph.D. Student, MARS Lab, School of MAE, Nanyang Technological University, Singapore

cxy980212@gmail.com | +86 152 5415 6088 | [xyc0212.github.io](https://github.com/xyc0212) | [Google Scholar](#) | [GitHub](#)

Education

Nanyang Technological University, Singapore 2025 – Present

Ph.D. in Mechanical and Aerospace Engineering (MARS Lab). Advisor: Prof. Jianfei Yang.

Shandong University, Jinan, China

Sep 2020 – Jun 2023

M.Eng. in Control Science and Engineering. GPA: 89.4/100 (Rank 1/116). National Scholarship (top 1%).

University of Jinan, Jinan, China

Sep 2016 – Jun 2020

B.Eng. in Electrical Engineering and Automation. GPA: 89.7/100 (Rank 4/403). National Scholarship (top 1%), Government Scholarship (top 1%), Song Jian Scholarship (top 0.1%).

Standardized Tests: TOEFL 106 (R29 / L27 / S23 / W27); GRE 319 + 3.5.

Research Interests

Robotic manipulation, dexterous manipulation, embodied AI, and imitation/reinforcement learning for robot policy learning.

Publications

Bold denotes the author. ([†] co-first author where applicable.)

Experience

Graduate Research — MARS Lab, Nanyang Technological University

2025 – Present

- Embodied AI agents for life science: robotic and dexterous manipulation, and visuomotor policy learning that pairs foundation models with robotic arms for Chem/Bio lab automation.

Research Intern — MegaRobo, Beijing, China

Nov 2024 – Jan 2025

Research Intern — Realman, Beijing, China

May 2024 – Aug 2024

Research Intern (Remote) — SAIR Lab

Sep 2023 – Sep 2024

- Imperative-learning-based A* pathfinding; contributed Spline and ICP modules to the open-source PyPose library.

Graduate Research — Shandong University

2020 – 2023

- LiDAR SLAM and localization on non-level roads, safe and smooth trajectory planning, and LiDAR-only person-following for mobile and quadruped robots.

Research Intern — Yobotics, Jinan, China

May 2020 – Jul 2020

Honors & Awards

- National Scholarship for Graduate Students (top 1%), 2023
- CUBA (Shandong) — Third Place, 2022
- National Scholarship for Undergraduates (top 1%), 2020
- Song Jian Scholarship (top 0.1%), 2020
- Meritorious Winner, Mathematical Contest in Modeling (MCM/ICM), 2019

Professional Service

Reviewer: IEEE Robotics and Automation Letters (RA-L); International Journal of Robotics Research (IJRR).
